

FULL SCORE

HUNTING SAFARIS

W elcome

Full Score Hunting Safaris is situated in the northern part of the South African Bushveld, close to the Limpopo River in the Musina district, Limpopo Province, South Africa.

The farm is vast and expansive, allowing a 'walk and stalk' hunt if you so wish. Hunting from pre-built hides is an option which may be entertained.

FULL SCORE HUNTING SAFARIS is a 2000 ha, well stocked, family-friendly, eco-tourism and hunting farm.

Diverse Fauna & Flora Bushveld including 30 + mammal species, 160 + tree species and 150 + types of birds.

We welcome hunters, eco-tourists and groups who share our love of the great outdoors.

Hunting is done walk & stalk, or from one of our 6 comfortable bowhunting hides. We are surrounded by the huge silence of Africa, which you will not forget.

ACCOMMODATION

Our luxurious camp consists of a lodge, where the indoor bar and dining room are situated as well as chalets, amid huge indigenous Baobab trees.

The team personally sees to it that all your requirements and needs are catered for in a way which will exceed all your expectations of an African Hunting Safari.

There is a lovely pool to cool down in during the warmer months.

Game drives are available when possible (not interfering with the hunters in the bush).

Meals consist of real South African food. Lunch boxes are provided for the hunters while a light lunch will be available for those guests remaining in camp.

African Bush bring home the true African experience.

Many different species can be hunted from blinds, making this a bowhunter's paradise!

We are looking forward in spoiling our guests, listening and sharing experiences and adventures of the African bush.

Drinks can be enjoyed, friendships appreciated for times to come.

BEFORE THE HUNT

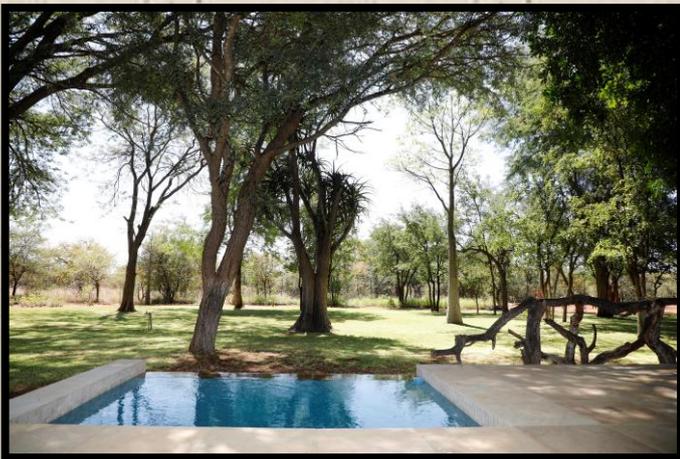

The first thing about hunting, is you need to know what kind of animal you are looking to hunt.

Your entire hunting experience can be affected by your choice of outfitter and your choice of preferred animals to hunt.

TRAVEL

You will need a passport - If you already have a passport, be sure to check the expiry date. You are required to have at least one entirely blank (unstamped) page in your passport. US and Canadian hunters – for South Africa only a passport is required, no visa. Please make sure you meet all the legal requirements when flying with a minor.

An early booking is recommended, and something to keep in mind is that, if your flight comes in late, you should preferably stay over at the recommended guest house and wait for a FULL SCORE representative to come and pick you up in the morning. The Guest House or Oliver Tambo International (Alternatively Polokwane International Airport) will be the pick-up point.

Area information

- Sea level: 3500ft
- Climate: Mild winters, dry hot summers
- Average Rainfall: 18 inches per annum
- Winter temperatures (April – August):
32degrees Fahrenheit (min),
75degrees Fahrenheit (max)
- Summer temperatures (September – March):
80degrees Fahrenheit (min),
100degrees Fahrenheit (max)

PREFERRED TIME OF YEAR

• March – May

Temperature is never too hot, rarely exceeding 90 degrees F. Humidity is low and mornings and evenings are cool

• June – August

Dry winter season when the grasses are low and the animals can be seen clearly.

Average daytime temperatures are 65 – 70 degrees F.

Nights and mornings can be cool. Temperatures begin to warm in September.

• September – November

A nice time of the year .

Days are warmer with lows of 65 degrees F and highs in the 90s.

METHODS OF BOWHUNTING

Walk and stalk

This is one of the most liked methods of hunting, but not the most successful. It could be very difficult at certain times of the year. The best months to stalk are definitely months from March to June which is right after our main raining season. During this time our hunting area offers great stalking opportunities as there will be cover to get close enough for the perfect shot. After June it gets very dry in our region and all trees lose their leaves, which makes stalking almost impossible to get within bow range to the target, due to no cover and the noise when stalking. Hunters need to be prepared for shot-distances of 15-50 yards.

Blinds at waterholes

This method is definitely the most successful method in taking quantity and quality of animals. The blinds are built in different directions in order to allow hunters to hunt during any wind direction. They are also dark on the inside to minimize movements after opening the windows. The windows are spaced so that you can view the whole area while sitting on your chair. They are built big enough for up to three people.

Terms and Conditions

A deposit is required to secure your hunt dates. There shall be no refund on any deposit paid if a hunt is cancelled within six (6) months of the date of commencement of the safari. In the event of a hunt being cancelled prior to six (6) months of the date of the safari, your full deposit can be used to re-schedule another hunt in an alternative year. Prices are subject to change without notice due to major fluctuations in the us dollar – South African rand exchange rate.

FULL SCORE HUNTING SAFARIS cannot be held responsible for any loss, damage, illness, injury, or death that may occur during or on safari. Any extra expenses incurred as a result shall be the responsibility of the client.
